mendes.paul28@gmail.com

Marital Status: Single

PROFILE

A successful developer with extensive analytical and software experience of investigating and development. Multi-talented with good all round technical skills and the ability to develop and maintain close working relationships with other support and development teams. Having the personal drive required to deliver a service that exceeds the expectations of colleagues and end users through a positive, well organized and structured work ethic. Looking for a career advancement opportunity with a company that will challenge my problem solving skills and allow me to develop my knowledge & potential.

Technology is about problem solving, this is a challenge I have always loved. The potential of where the world could be with technology in 50 years' time fascinates me, and it is exciting to know that been involved allows me to move in any direction. My love for technology has made me versatile to be able to design, program and get my hands dirty with hardware problems at the same time.
